

Introducing the New High Volume QS240XR Proppant Silo

Site Storage Capacity up to 6,720,000* lbs (9,160,000* lbs with **Quickload 300**) including performance certainty of up to 5 **QS240XR Silos** unloading direct to blender hopper for a total of 1,200 tons*! New 30,000 lb./min. unloading rate!

- Transported with the innovative **Quickstand Trailer**, for unassisted setup in 5 minutes.
- One side trailer hookup with the choice of unloading at 5 positions via an adjustable unloading chute.
- The spout is easily moved to each position which allows for optimal repositioning on site with a simple, manual, reliable system.
- Optimal direct to blender loading chute height and optimal reach.
- Dual Compartment or Single Compartment. Minimal increase in height compared to previous models.
- **Quickstand's** center unload system & centrally mounted flow control gates for stability.
- Uses as many of the same parts and systems as previous **Quickstand** lines.
- 6 pneumatic loading pipes. For dual compartment: 4 fill pipes for large compartment (2 per side) and 2 fill pipes for the small compartment (1 each side). For single compartment: 2 fill pipes each side.
- Fill tubes changed w/o requiring confined space access.
- If the site needs to be dismantled before silos are empty the rotating chute and **QL300** can easily unload!

Volume	4,490 ft ³ / 127m ³	Footprint:	13'11" x 14' / 4.24 m x 4.267m
Est. usable capacity	240 tons / 214 tonnes	Working Height:	54' 1" / 16 m
*est @110 lbs/ft ³		Transport Dimensions:	Height 15' 8" / 4.78m
Chute Working Height:	62 1/4" (5' 2 1/4")		Width 13' 11" / 4.24m
			Length 51' 6" / 15.70m
