

Introducing the New High Volume QS190XR Proppant Silo

A 190 ton* usable capacity small footprint **Quickstand Silo** with a 62 ¼" high extended 5 position chute makes it easier to spot the maximum **Quickstand Silos** directly into the blender hopper. 5 **QS190XR Silos** can unload direct to blender hopper for a total of 950 tons!

- Transported with the innovative **Quickstand Trailer**, for unassisted setup in 5 minutes.
- One side trailer hookup with the choice of unloading at 5 positions via an adjustable unloading chute.
- The spout is easily moved to each position which allows for optimal repositioning on site with a simple, manual, reliable system.
- Optimal direct to blender loading chute height and optimal reach.
- Dual Compartment or Single Compartment. Minimal increase in height compared to previous models.
- **Quickstand's** center unload system for stability with centrally mounted flow control gates.
- Uses as many of the same parts and systems as previous **Quickstand** lines.
- 6 pneumatic loading pipes. For dual compartment: 4 fill pipes for large compartment (2 per side) and 2 fill pipes for the small compartment (1 each side). For single compartment: 2 fill pipes each side.
- 4" or 5" fill pipes (4" standard) plus top loading access.
- Fill tubes changed w/o requiring confined space access.
- If the site needs to be dismantled before silos are empty the rotating chute & **QL300** can easily unload!

Volume	3,570 ft ³ / 101 m ³	Footprint:	12' 5" x 12' 5" / 3.78m x 3.78 m
Est. usable capacity	190 tons / 170 tonne	Working Height:	54' 1" / 16 m
*@110 lbs/ft ³		Transport Dimensions:	Height 14' 1" / 4.29m
Chute Working Height:	5' 2" (62 1/4")		Width 12' 5" / 3.78m
			Length 51' 6" / 15.69m
